## DANCE

DANCE (741 ) 125 Lathrop Hall (608)262-1691

Enroll at an appropriate skill level. Many dance courses require vigorous exercise that may be hazardous to the health of certain individuals, especially those with cardio-pulmonary disease and those who have not recently engaged in strenuous exercise. Any costs as the result of injury or illness connected with participation in these courses are solely the responsibility of the student. If you have a handicap which you believe requires accommodation, notify instructor prior to participation in any course activity. Attendance at one-half the 3:30-4:30pm Friday Forums is required of all students enrolled in a majors course.

## PHYSICAL EDUC ACTIVITY PROGRAM

PE ACTIV (740 ) Ronnie Carda, Coordinator, 1011 Gym-Nat, (608)262-1690.

The following classes have moved to the Kinesiology class schedule: 100-Exercise, Nutrition, & Health; 129-Intro to Yoga Practice; 134-Relaxation Techniques and Exercise.

Attendance requirement limits absences. Many P.E. courses require vigorous activity which may be contraindicated for certain individuals, especially those with cardiopulmonary disease. Any costs as the result of injury or illness connected with participation in these courses are solely the responsibility of the student. If you have a chronic disorder which you believe requires accommodation, notify instructor prior to participation. When classes are filled wait lists are started, email instructor. Except for modular courses and 308 & 310, the 1st class is orientation & stdts do not need to dress for activity.

Due to capacity limits the department cannot guarantee acceptance in any ECE courses even for ECE majors. When necessary, enrollment priority for students registering on schedule will be given to: 1) EE & CMPE majors, ECE graduate students & AMEP program students; 2) students admitted to another engineering major or PhD minor. Evening exams may be scheduled for all courses.

Department home page ([www.econ.wisc.edu](http://www.econ.wisc.edu)) contains information about the wait list policy. Placement on the wait list does not guarantee enrollment in the class. It is always recommended that you enroll for a full class schedule in case your initial selections are not available. When students enroll but do not meet the prerequisites for a class, they will be asked to drop the class. All undergraduate courses crosslisted with School of Business departments are restricted to enrollment only by students majoring in Business until Thursday, April 23rd at 9:00 a.m. unless otherwise noted.

**100 Economic Approach to Current Issues** *Math 101 (or suitable math placement score) or satisfaction of Quantitative Reasoning A. Not open to students that have completed or are currently enrolled in Econ 101, Econ 102 or Econ 111*

It is intended not only as a seminar in social theory but also as a seminar in the comparative-historical sociology of ideas. Among the authors we will examine are Durkheim, Marx, Simmel, Sombart, Weber, Park, Thomas, and Wirth. The working hypothesis of the course is that in all three national traditions of social thought Jews served as a touchstone for defining what it meant to be modern and what it meant to be French, German, or American. The seminar may be of interest to students interested in the experiences of analogous groups such as women and blacks who similarly served as a kind of conceptual "other" in the construction of modern |  |

nation-states. Term papers may compare portrayals of Jews and another group of the student's choosing. Some basic familiarity with classical sociological theory (Sociology 773 or the equivalent) is required.

-One semester of differential calculus or familiarity with concept and uses of derivatives is recommended.  
-Course uses quantitative and conceptual approaches to understand how organisms interact with their environment from individual to

landscape scales.  
 -Course includes lectures, discussion of primary papers, and experiential lab and field studies that emphasize statistical approaches to analyzing data.  
 -Required field trips. \$40 fee towards transportation due the 1st week of class. No refunds issued after first field trip.

Topic: Health and Citizenship: This course explores the relationship between health and citizenship. Among its key themes are the following questions: When did the link between health and human rights first emerge? How has it developed historically? What factors define citizenship? To what extent does physical and mental health constitute a gauge of enfranchisement and of one's access to power in the modern state? In what ways does the de facto absence of citizenship in cases like those of ethnic minorities, the desperately poor, and |

colonial subject populations, delimit the possibility of a human right to health? How have structural health inequities historically posed significant threats to global security? Such questions have been central to studies of the political economy of health and disease, anthropology, and area studies, but have been less apparent in historical research. This course offers a key means for integrating these questions into an interdisciplinary approach to global health. The course will focus primarily on the development of the relationship between health and citizenship in modern Europe beginning with the French Revolution and through the rise of the welfare state before exploring the implications of ideas about health and human rights in a global context.

Merchandising Medicine: History, Anthropological, and Ethical Perspectives: "Public health is purchasable," Hermann Biggs, Chief of the Public Health Department of New York City famously said. So are many other things associated with health: medical care (including nursing and rehabilitation therapies), healing treatments (pharmaceuticals, herbal medicines, diet supplements, vitamin water, prosthetics, implants, organs). This graduate seminar uses theoretical and historical methods in considering the ways in which medicine and commerce are interrelated, from the commercialization of the blood supply, tissue, organ, egg donation, 23andme, FitBit data, dietary supplements and diet plans, and even care itself. |
